

Circular Stair Stringers

Big, True, Plumb and Fast!

Challenging helixes formed from the smallest to the largest sizes of plate, channel, tube, pipe or beam by Chicago Metal Rolled Products. Turnaround time within 2 weeks.

This monumental four-story circular staircase took 100 hours of skilled labor, rolling HSS 14 x 4 x 5/8" stair stringers and top rails made from three 5" XS pipe (.318" wall) weighing over 160lb per linear foot.
